

All candidates say they support education.

**Some do.
Some don't.**

When the candidates come knocking, ask the tough questions...

- ? How do they plan to recruit and keep the best teachers for our kids?
- ? Do they believe investing in public education is the best way to improve Montana's economy?
- ? How will they keep higher education affordable for Montana students?
- ? Will they vote for better state funding to help Montana's public schools and colleges?

A message from Montana's
Stand Up For Education Coalition.
